

MAHN's Food Resource Program Highlights 2022

MontCo Anti-Hunger Network's Food Resource Program coordinates food donations to Montgomery County's Food Safety Network of food pantries and soup kitchens. We focus on increasing the volume of nutritious food available to those in need.

HOW IT WORKS

Food becomes available through regional providers, retail rescue pick ups, and network transfers of donated products through pantry to pantry sharing.

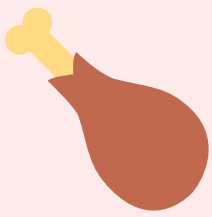

Food is picked up weekly by MAHN following safe food handling procedures and delivered directly to soup kitchens and food pantries on a "take what you need basis" so nothing gets wasted.

Food stays local and has an immediate, positive impact on the community. The stress of soliciting and logistics behind large scale food donations are eliminated for the network.

In addition to the items below, MAHN distributes paper products, cleaning supplies, and personal protection equipment when available.

PRODUCTS DISTRIBUTED

87,063 lbs.
Fresh and Frozen Meats

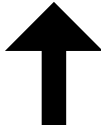

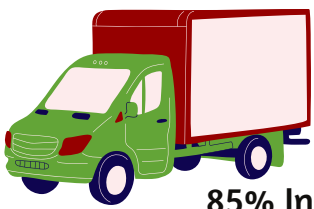

78,642 lbs.
Dairy Items

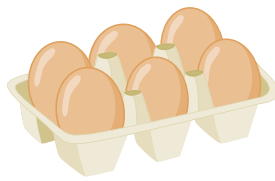

52,144 lbs.
Fresh Produce

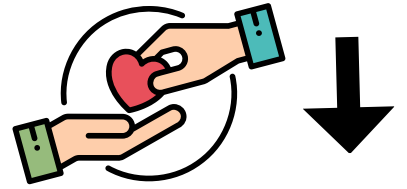

INFLATION IMPACTS

85% Increase in
Transportation Costs

12% Increase in
Purchased Food Costs

5% Decrease in
Individual Donations

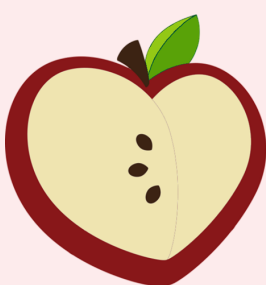

2022 IMPACT

The program has delivered more than 417,000 pounds of donated and purchased foods, 44% of which was rescued.

“ The MAHN distributions have enabled us to provide guests with two meat options AND eggs each week. Our pantry is focused on providing fresh, healthy foods and we couldn't do that consistently without MAHN. THANK YOU!!!

-Food Pantry Coordinator
